Get more from the British Pharmacopoeia Online 2027 edition

Hosted by

 **williams lea** | tso
An RRD Company

September 2026

Welcome and housekeeping

- The webinar is hosted on Zoom
- The webinar will last approximately 45 minutes
- The webinar is being recorded, and all registrants will receive a recording after the webinar
- Participants will be on mute, and cameras will be disabled throughout the webinar
- Please use the Q&A window for all questions
- Where possible, put the panellist's name against your question so we know who it is for

Webinar agenda

1. Welcome and introductions
2. New features and tools
3. Demonstration of BP Online
4. Overview of BP licences for the 2027 edition
5. Audience Q&A

**British
Pharmacopoeia**

Welcome and introductions

Meet our innovation team

Supporting innovation while maintaining confidence in the quality of medicines

Our users

New features and tools

From insight to improvement

You tell us what matters. We act on it.

We gather feedback throughout the year, prioritise it by user need, and translate it into practical changes.

1

Listen

Surveys, interviews,
website feedback
and email

2

Prioritise

Common needs,
friction points and
clear user need

3

Improve

Focused projects
that increase
usability

4

Learn

Monitor usage and
keep listening

The result = a BP experience that keeps evolving around user needs

Latest enhancements

2025/26 was a year of practical enhancements

Find altered texts faster

Filter the BP Online by new, updated and omitted texts. Result flags in BP and BAN show the status before you open a text.

BPCRS stock alerts

When an item is out of stock, the BPCRS catalogue now lets you request an alert when new stock becomes available directly from the search results page.

Access omitted texts

A dedicated omitted texts page includes material dating back to BP 2014. Archive customers can open the last edition in which a text appeared.

Clearer ordering

The BPCRS order confirmation email and About BPCRS page have been updated. The changes make it clearer what information new customers need to provide and which checks must be completed before controlled drug orders can be dispatched. This should help reduce delays between ordering and delivery.

Enhancements in the last year

Interactive ‘How to use the BP’ guide

CAS number search for BPCRS products

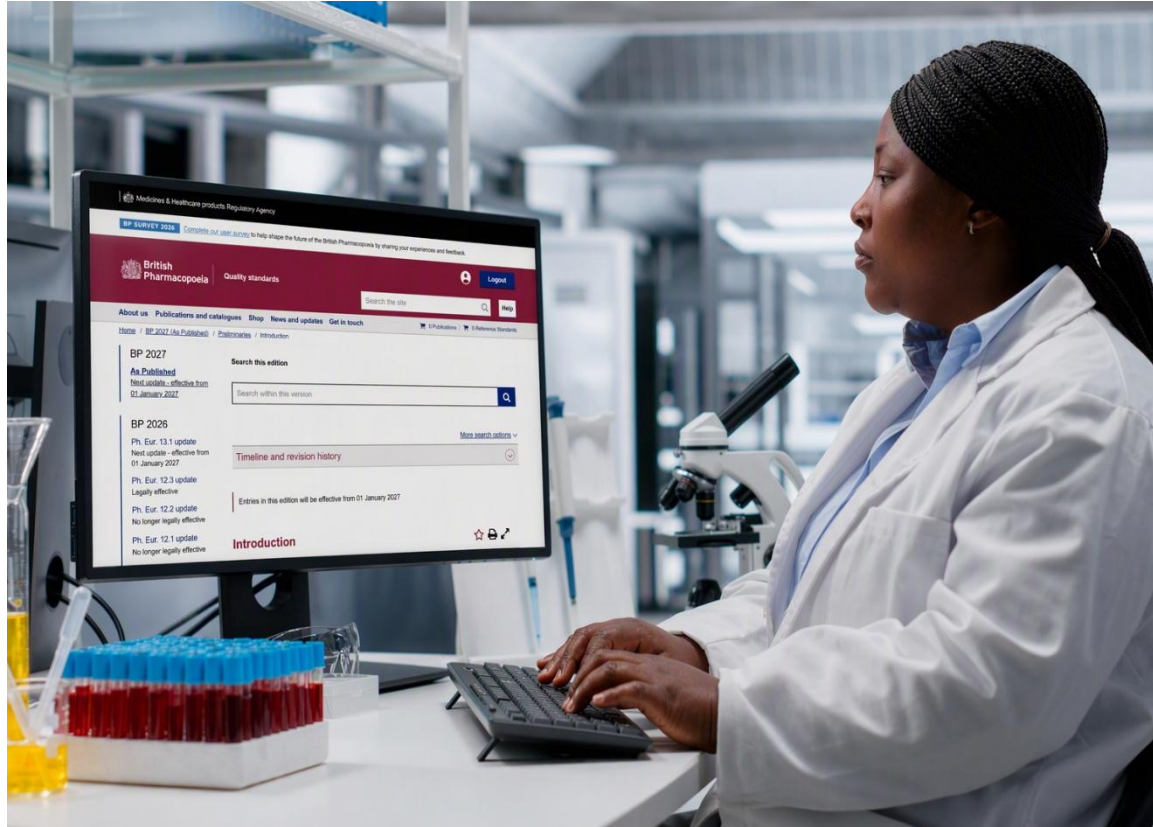

Online BP release schedule

New training and events page

Demonstration of BP Online

BP Online demonstration

How to make the most of your licence and beyond

BP Online

- BP dashboard
- Accessing BP Online and checking which edition you are using
- Identifying BP and EP texts
- Advanced search capabilities
- More resources area
- Timeline and tracked changes

BP website

- Release schedule
- How to use the BP guide
- Contributing to draft texts
- Finding omitted texts
- The BPCRS catalogue

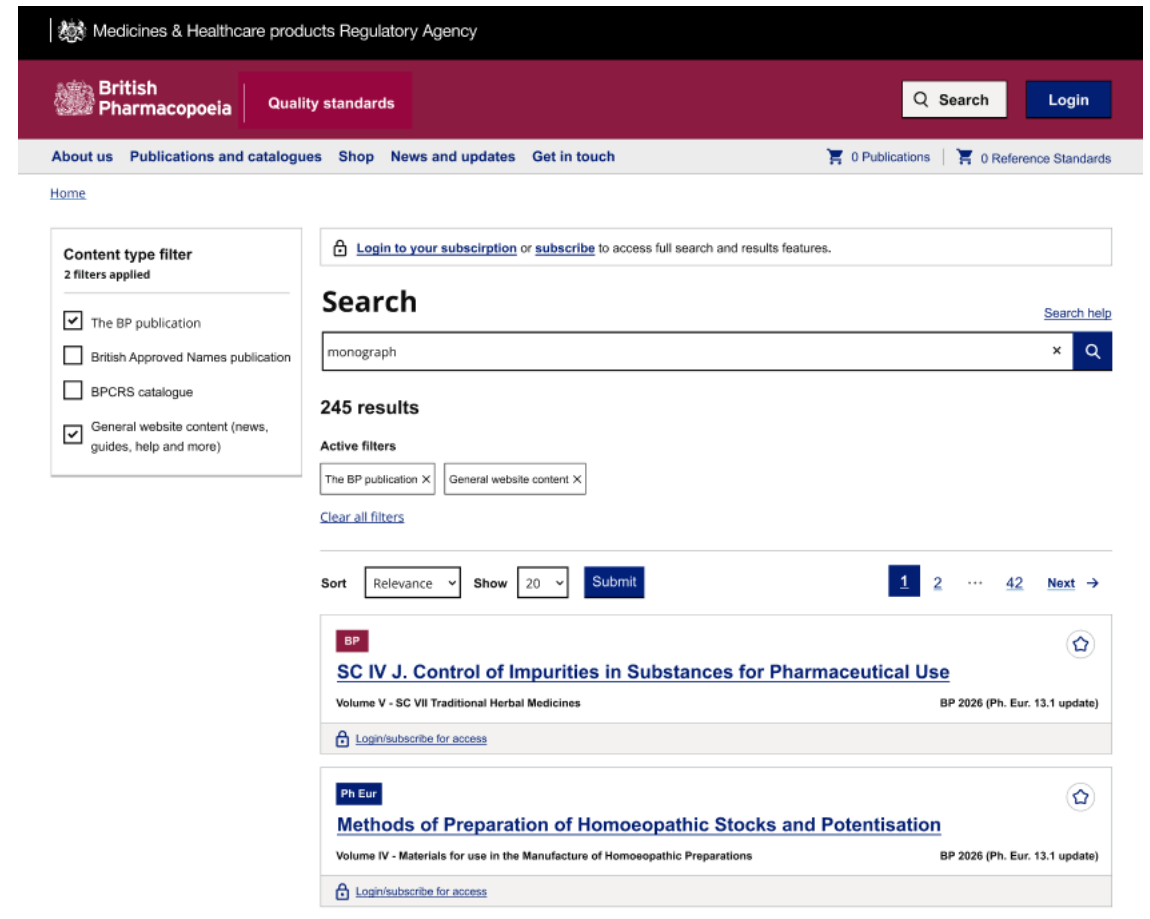

What's next for BP Online

Centralised search

- One home page search for publications, BPCRS and home content pages, such as news, information and training.
- Filters so you can choose what you want and the area you want to search

More Resources enhancement

- More visible resources
- Clearer categories for supporting information
- Highlighting when draft text is available

Example wireframes of new home search

Keep providing feedback

Help shape the future of BP

You can find the feedback tool at the end of every page. Select No to tell us how we can improve

Is this page useful?

You can register to take part in user acceptance testing on our new designs by scanning the QR code below.

Feedback

* Fields marked with an asterisk are required

Overall how do you feel about the service you have received today *

☐ Very satisfied

☐ Satisfied

☐ Neither satisfied or dissatisfied

☐ Dissatisfied

☐ Very dissatisfied

How could we improve *

We would like the opportunity to contact you should we need to discover more about your experience, if you would like this please share:

Overview of BP 2027 licences

Licence options

Choosing the right licence for your organisation

Multi-user licence

You can register unlimited users under a multi-user licence. Your licence is based on how many people need to use BP Online at the same time.

Single-user licence

Single-user licences are designed for individuals who need access to BP Online.

Understanding BP Online, Archive and BAN

Single-user access to BP 2027 Online is for one named user. Access expires on 31 March 2028.

BP Online	BP Archive (optional)	British Approved Names (optional)
Access to your edition • One BP Publication online • Example: BP 2027 Online gives access to BP 2027 • Search, browse and save relevant content	Access previous editions • Earlier editions back to BP 2014 • Can include legally effective edition • Find omitted texts that may remain legally effective • Add to a BP Online licence	Access the complete BAN list • Standardised names for pharmaceutical substances • Published annually • Available alone or with BP Online

BP Online + Archive = Current access + preparation time

How BP multi-user licences work

Register everyone who needs access. Choose the licence based on how many people need to use BP Online at the same time.

1) Estimate concurrent use

Count the highest number likely to use BP Online at the same time and where they are based.

2) Choose the right tier

Select access for up to 5, 10, 25, 50 or 100 at one time

3) Register unlimited users

Add as many named users as your organisation needs.

Example: 25 or more registered users, up to 5 online at the same time.

The organisation needs an “up to 5” licence, not a 25-user licence.

5 using BP now

25 or more registered but not currently using it

Other options

Global: Unlimited users worldwide, including BP Online, Archive and BAN.

Academic: Special rates for eligible universities and teaching institutions.

Licence timing

With BP Archive: starts 1 August • Without BP Archive: starts 1 January • Pro-rata pricing is available for new licence holders

Licence pricing

BP 2027 Online

Single licences	No. of users	BP Online	BP Archive*	BAN Online*
1 single user	1	£950	£200	£150
2 person pack	2	£1,200	£200	£300

Global	Unlimited	Contact us	included	included
Academic	Unlimited	Contact us	included	Contact us

*BP Archive and BAN Online are optional products.

All of our licences include 3 in-year updates to align with the European Pharmacopoeia

Multi-user licence administrator controls

How you can manage and invite your users

Domain registration

With domain-based self-registration, users can register through our website using their organisation's email address and location.

To enable this option, please send TSO your organisation's email domain or domains.

We will then verify and register them for you. Once set up, you can view registered domains in your admin portal under your profile and disable self-registration at any time if needed.

Invite your users

If you do not want to give access to everyone using your organisation's domain, you can invite users individually or in bulk.

1. Log in to your account.
2. Select your profile next to the logout button in the top-right corner of the screen.
3. Select Invite user from the left-hand navigation menu.
4. Enter the user's email address.
5. Select Invite user.

Bulk Invite also available

Third-party access

For academic institutions, we also support access through:

- Open Athens
- UK Access Federation (Shibboleth)

Please contact TSO to set this up.

Once third-party access has been activated, you will not have a licence manager account.

Users will access BP Online anonymously and will not need to reconfirm their email addresses.

Contact us if you need any support customising your multi-user access: esupport@tso.co.uk
