TO WHOM IT MAY CONCERN

SODIUM FEREDETATE ORAL SOLUTION

IDENTIFICATION TEST C

It has come to the attention of the Secretariat that Identification test C in the monograph for Sodium Feredetate Oral Solution is not suitable, as a yellow precipitate has been observed at the end of the first stage of the test.

Identification test C will be removed from the monograph in a future publication.

Please accept this letter as a notice of intent to amend the monograph on behalf of the British Pharmacopoeia Commission. This letter is for information only and does not represent a legally enforceable standard. The revised monograph will be published in a future edition of the British Pharmacopoeia. The target publication is the British Pharmacopoeia 2021, which will be published in August 2020 and will come into force on 1st January 2021.

If you have any questions concerning this letter, please do not hesitate to contact the British Pharmacopoeia Secretariat (fiona.swanson@mhra.gov.uk).

Yours faithfully,

MR JAMES POUND

Secretary & Scientific Director
